

# Sustainability Policy

As Akcoat, protecting health and the environment, ensuring, and continuously improving safety, and resource efficiency is a fundamental part of our strategy. Working continuously for a sustainable future, producing innovative products, and continuously improving our technological infrastructure are our main priorities in all our work, our relations with our stakeholders, and our commercial activities.

From a corporate sustainability perspective, we have adopted the following issues as our responsibilities and principles that we will not compromise.

- **Developing sustainable products and services that will provide added value to our stakeholders by following the changing conditions in the market and customer expectations,**
- **To work continuously to be the preferred solution partner for our customers' current and future needs,**

- **To comply with national and international legal regulations and other obligations in the geographies where we operate,**
- **To continuously improve the quality of our business processes, products, and services and to reduce our risks day by day,**
- **Minimize our impact on health, safety, and the environment across the entire supply chain,**
- **Continuously improve energy efficiency and strive to save resources when designing our operations,**
- **Develop and apply technology, alternative raw material sources, and working methods to continuously improve our quality, environmental, health, safety, and energy performance,**
- **With all our stakeholders, to be in two-way communication and determination to work together to ensure the safety of our operations to ensure our quality, to protect the environment, to prevent injuries and health deterioration by prioritizing the health of our employees.**

As Akcoat; while we continue to progress towards becoming an organization that respects universal values, adopts continuous learning as a principle, cares about the future of the world, and has a people-oriented perspective with its employees, the fact that all our employees are committed to these principles and actively participate in them is our most important commitment and our greatest assurance for our future.
